

## **LCG - Smart Strip 10 Outlet Power Saving Surge Protector**

### **LCG Series Surge Protector Specifications:**

- Recessed, lighted power switch
- Pat. pending combined ground and surge protector status indicator
- Red switched outlet indicator
- 6-foot 14 gauge heavy-duty power cord
- 45° angled space saver plug
- Wall Mountable in all 4 directions
- 10 outlets total
  - 1 Control outlet – always hot
- 3 Constant hot outlets – 1 transformer
- 6 Switched outlets – 3 transformer
- UL 1449 rating
- 120 Volt 50/60 Hz
- 2875 joules protection
  - 1325 joules live to neutral
- 775 joules live to ground
- 775 joules neutral to ground
- 84,000 amps, three-way Protection
  - 36,000 amps live to neutral
- 24,000 amps live to ground
- 24,000 amps neutral to ground
- 330 volt, three-way protection
- 15 amp circuit breaker
- 4 different fuses:
  - 2 Thermal & current fuses
- 2 Trace land fuses
- Superior EMI/RFI filtering:
  - 2 Bar coil chokes
- .1ufd film box capacitor
- Up to 60dB line noise reduction

### **LCG Series Energy Saver Specifications:**

- Ultra safe passive current sensor
- Patented protective hysteresis circuit
- 2 RC filters eliminate false switching
- Uses ZERO POWER when the switched outlets are off
- Uses less than 1 watt when fully energized
